

Melaleuca

Read the following with you in the position of the enroller or the one who is inviting people to enroll in Melaleuca as a customer.

When someone enrolls as a customer they have three options:

- 1) purchase 35 points or basically \$60 worth of product
- 2) purchase a [Value Pack](#) for \$199
- 3) purchase a [Home Conversion Pack](#) for \$299.

When a new customer enrolls, Melaleuca pays the enroller \$25, \$50 or \$100 depending on whether a 35 point order, Value Pack or Home Conversion pack is ordered upon enrollment.

So if you enrolled 20 customers who purchased 35 points worth of goods you would earn \$500 (\$25 x 20); if they all purchased a Home Conversion Pack you would earn \$2,000 (\$100 x 20).

You can make further income estimates based on minimum or varied orders.

Let's say out of 20 customers 2 ordered a Home Conversion Pack (\$200), four ordered a Value Pack (\$200) and the other 14 ordered 35 point orders (\$350). Your total income would be \$750.

You can earn Advancement bonuses too. For instance once someone enrolls 8 customers they become a Director. That pays \$100 (or it would pay \$200 if that person began with a Value or Home Conversion Pack). After enrolling 10 customers or more who total 1,000 customer points they would make Director II which pays \$200 or (\$400).

And when someone enrolls 20 customers within 5 months they receive a \$500 bonus.

The total income for this scenario=

\$750 - 20 customers.
\$100 - Director
\$200 - Director II
\$500 - Enroll 20 customers.

TOTAL=\$1,550 or \$1,850 if the original order is a Value or Home Conversion Pack.

For ongoing or residual income:

The average customer shops for 50 products points. If you had 20 customers or more and they purchased a combined total of 1000 product points per month. The enroller is paid 20% of the 20 customers orders which is \$200 per month or \$2,400 per year.

Your total income from enrolling 20 customers is roughly $\$1,550 + \$2,400$ or $\$3,950$ the first year. This does not include income from members of your organization who are enrolling customers.
